Description

SM is reporting that their HVAC starting making a weird noise last night. Send tech to investigate and repair as needed. Must seek approval to exceed the NTE.

[REDACTED] (08/06/2020) - Work Note

Upon arrival checked in with manager and gained access to the roof. On the roof located RTU that has a loud squeal noise coming from the blower section. Removed blower door and found blower belt squealing very loudly. Removed belt replaced with (1) A32 drive belt (provided by [REDACTED] and tested unit. All ops are normal at this time. Temp splits 51/73.
